Was told there's a call right now but Gina forgot to give me the number. Would be good to have it.

And I'm looking for better pictures; I'll add one once I find one that works better. The Durango Harold has a video where I might be able to use some stills.

Thanks,

Tim—can you set up a webpage called “EPA Gold King Mine Release” for possible use? I’m thinking of a format similar to Glendive spill where we can post updates for a while and direct folks to current statements and updates pulled from polreps. Keep it offline for now, I’ll send you some language in a bit.
